I would like to say. It's my first time to join the class like this.

But, I really enjoy the time here.

Met different people, creat all things together. An amazing place.

I also learn a lot things from here!

Hope everyone all good!

Thank you very much!

First of all, thank you very much, it was a very sensitive way of leading a workshop, while maintaining a caring hand over it and leaving a space to people as well. It'd be interesting to see how all the exercises work with some excluded social groups, not so eager to participate - to really see the links between the exercises in practice. Thank you for coming!

Overall, this was a very positive experience. There was an open, creative energy that Maria fostered throughout the process. She also did a great job of both connecting the exercises to theater in general and to the work that she does with young drug addicts. Thanks a lot!
