

**Vocational and Educational Training
(VET) for People with Disabilities
through Cultural Institutions
2015-2017**

“Count Me In Too (CMI2)”

Dear Reader,

Since our last newsletter in November, the CMI2 team have been hard at work making improvements to the App Generator, developing more apps and elearning modules.

The App Generator has been improved with additional features and a fresh new look:

The App Generator is designed to enable vocational training professionals, managers, supervisors, mentors and job coaches to create simple task-based training apps that will empower workers and trainees with learning disabilities to work more independently.

It is very simple to use, no coding skills are required. We also have an inbuilt tutorial to help you build your first Apps. It is completely free to sign up and to start creating and sharing your Apps. Sign up here - <https://www.cmi2.eu/en-gb/accounts/register/>

You can also take a look at the Apps the CMI2 team have created and the eLearning Modules which support the Apps - <https://www.cmi2.eu/en-gb/resources/>

Throughout February and March the CMI2 team will be running seminars in Austria, Denmark, Hungary and Poland. Visit, like and share our Facebook page to get the latest updates and information regarding these seminars and much more: <https://www.facebook.com/CountMeIn2/>

Count us in too!

The CMI2 Team
